

# Sustainability and Transformation Partnership and Plan (STP)

## Headline findings Outcome of Engagement Report

### What is the STP?

Our STP sets out significant challenges we face in Gloucestershire and the opportunities to ensure local people can access high quality, sustainable and safe, physical and mental health care into the future.

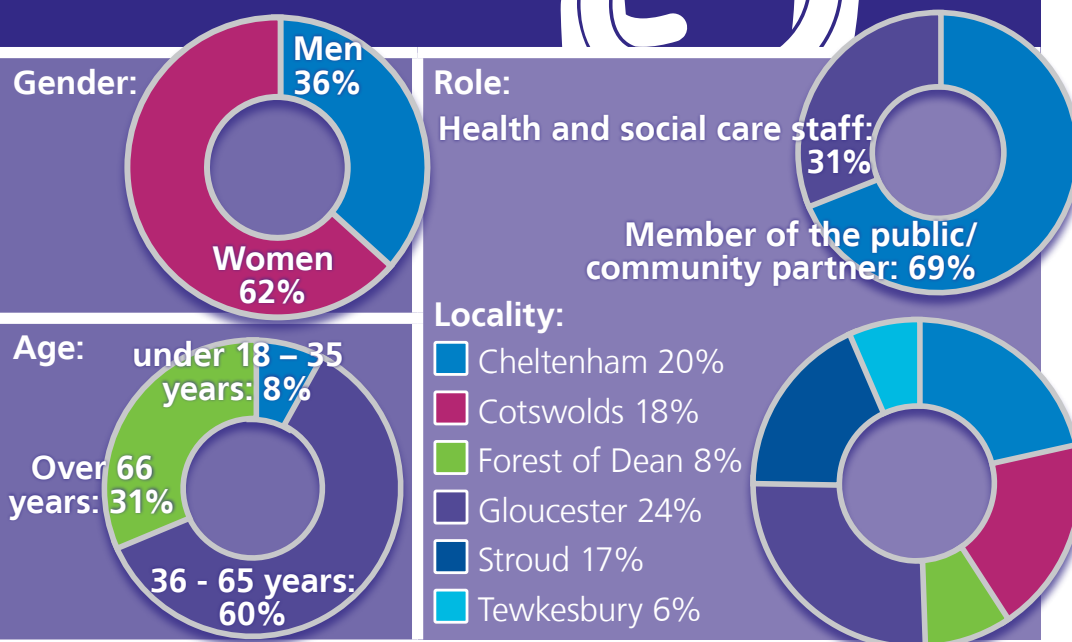

### About the Engagement

<b>1,299</b> face-to-face contacts	<b>20</b> articles in local press
<b>53</b> events	<b>44,146</b> social media reach
<b>19</b> Information Bus Drop Ins	<b>10,749</b> website visits
<b>8</b> sports/leisure centre visits	<b>638</b> surveys completed

### Joining up Your Care

- 72% agree a greater amount of the budget should be spent supporting people to take more control of their own health
- 88% agree there should be a greater focus on prevention and self-care
- 95% agree we should develop joined up community health and care services
- 69% agree we should bring some specialist hospital services together in one place
- 70% agree we should focus on caring for people with the greatest health and care needs

### Who got involved

### When resources are limited priorities should be...

- 1st caring for people in their own homes, or near to where they live
- 2nd investing in health promotion – helping people to stay well for longer
- 3rd prioritising the funding of drugs and treatments that have the greatest health benefit for the population
- 4th treating people with the most complicated health conditions
- 5th funding additional community services by reducing the number of hospital beds in the future

### Hospital beds should not be used for people...

who no longer need hospital nursing or medical care:	<b>97%</b> agree/strongly agree
who feel lonely or isolated:	<b>90%</b> agree/strongly agree
who have medical needs that can be met at home, or in a care home:	<b>94%</b> agree/strongly agree
whose family feel unable or are unwilling to look after them:	<b>78%</b> agree/strongly agree

### Seeing a specialist – what's important...

- 1st expertise of the specialist
- 2nd time to wait for an appointment
- 3rd distance to travel
- 4th having as few appointments as possible

### Urgent or emergency care – what's important...

- 1st prompt assessment and decision making about treatment and onward care
- 2nd ability to access services 7 days a week
- 3rd centres/services staffed by specialists in dealing with your illness or injury
- 4th services that are joined up and can access information about my health and care needs
- 5th distance to travel

### Chatterbox:

objective – feedback from younger people

Chatterbox set up on a busy shopping Saturday in Gloucester. Shoppers invited to record their views on a range of STP topics. Visitors under 18-35 years: 52%

What do you do to keep yourself as healthy as possible?

What would you like to help you to achieve this?
